CALL FOR PAPERS

The International Conference on Image Processing (ICIP), sponsored by the IEEE Signal Processing Society, is the premier forum for the presentation of technological advances and research results in the fields of theoretical, experimental, and applied image and video processing. ICIP 2014, the twenty-first in the series that has been held annually since 1994, brings together leading engineers and scientists in image and video processing from around the world. Research frontiers in fields ranging from traditional image-processing applications to evolving multimedia and video technologies are regularly advanced by results first reported in ICIP technical sessions. Topics include, but are not limited to:

- **Image/video coding and transmission:** Still-image and video coding, stereoscopic and 3-D coding, distributed source coding, source/channel coding, image/video transmission over wireless networks
- **Image/video processing:** Image and video filtering, restoration and enhancement, image segmentation, video segmentation and tracking, morphological processing, stereoscopic and 3-D processing, feature extraction and analysis, interpolation and super-resolution, motion detection and estimation, color and multispectral processing, biometrics
- **Image formation:** Biomedical imaging, remote sensing, geophysical and seismic imaging, optimal imaging, synthetic-natural hybrid image systems
- **Image scanning, display, and printing:** Scanning and sampling, quantization and halftoning, color reproduction, image representation and rendering, display and printing systems, image-quality assessment
- **Image/video storage, retrieval, and authentication:** Image and video databases, image and video search and retrieval, multimodality image/video indexing and retrieval, authentication and watermarking
- **Applications:** Biomedical sciences, mobile imaging, geosciences and remote sensing, astronomy and space exploration, document image processing and analysis, other applications.

Paper Submission: Prospective authors are invited to submit papers of not more than four (4) pages for technical content including figures and possible references, and with one additional optional 5th page containing only references. Papers will be accepted by electronic submission only at: www.icip2014.com.

Submission deadline	January 31, 2014 February 14th, 2014
Notification of acceptance	April 30, 2014
Camera-ready papers	May 15, 2014
Author registration	May 25, 2014

Tutorials: Tutorials will be held on October, 27, 2014.

Brief proposals should be submitted by November 29, 2013 at the conference web site. Proposals for tutorials must include a title, an outline of the tutorial and its motivation, a short description of the material to be covered, contact information including name, affiliation, email, and mailing address for each presenter, and a two-page CV for each presenter.

Please see: www.icip2014.com for details regarding Paper Submission, "no-show" policy, special sessions, and tutorials.
